

INFORMATION

KNOW YOUR RIGHTS

- You have the right to choose your repairer. Name the repairer of your choice to tow truck operators and your insurance company. You do not have to accept any repairer they nominate.
- Insurance companies insist on a repairer being reputable, competent and reliable. Your repairer's membership of the NZCRA assures you of these qualities.
- Members of the NZCRA display the Association's symbol on their stationery and premises' signs.

LEGAL OBLIGATIONS

- If you collide with another vehicle you MUST STOP, check if anyone is hurt and render assistance to an injured person. You must also give your name and address to the Police if requested and (if some one is hurt) you must report the accident to the Police within 24 hours.
- If you damage another persons vehicle or property you must advise the owner or the police within 48 hours. For minor accidents, drivers should exchange names, addresses, insurance companies and registration numbers.
- The attached form makes this easy.
